SUMMARY

Computer Programming Student at Technological University of the Philippines in Manila with 2 years of experience in building full stack web applications, webhooks and AI-powered systems.

PROJECTS

HealthSync Clinic Management System **SEPTEMBER 2025**
• Build a web-based clinic management system, simplifying the school nurse's workflow through digital records, real time communication tools and streamlined healthcare processes.

Cup of Cafe **JUNE 2026**
• A sophisticated digital storefront demonstrating modern frontend paradigms, elegant interactions, and optimized asset delivery.

Digital Father's Day **JUNE 2026**
• Created an Interactive tap-to-open envelope, revealing a scripture-rooted tribute to the congregations pastors with personalized letters scroll triggered reveals and a closing message of gratitude.

JULIA AI **SEPTEMBER 2026**
• A Hello Kitty-themed AI that chats naturally, generate images from your ideas, reads photos, files and shared links and formats answers clearly from step by step list to tables.

RESUME ANALYZER **SEPTEMBER 2026**
• A web-based resume review system built with Node.js and Tailwind CSS featuring PDF and DOCX upload, rule-based ATS checks, AI-generated feedback, keyword matching against job postings, and section-by-section improvement suggestions for job seekers.
