SUMMARY

Computer Programming Student at Technological University of the Philippines in Manila with 2 years of experience in building full stack web applications, webhooks and AI-powered systems.

PROJECTS

AI Companion & Quiz Platform **SEPTEMBER 2026**

• Built a Hello Kitty-themed AI companion that chats naturally, generates images from ideas, and reads photos, PDFs, and shared links.
• Formats answers clearly, from step-by-step lists to tables, for easier studying and task support.

Clinic Compliance & Records Management System **SEPTEMBER 2025**

• Developed a web-based system that simplifies the school nurse's workflow with digital records and streamlined healthcare processes.
• Added real-time communication tools for managing clinic information and daily tasks.

AI Resume Review & ATS Scoring System **SEPTEMBER 2026**

• Built with Node.js and Tailwind CSS, supporting PDF and DOCX resume upload.
• Implemented rule-based ATS checks, AI-generated feedback, and keyword matching against job postings.
• Provides section-by-section improvement suggestions for job seekers.
